# DONATE BLOOD FOR Blood Cancers Research

Bloodworks is seeking volunteers diagnosed with  
**BLOOD CANCERS** to donate blood for research

If you are interested in donating  
or would like to learn more,  
please email us at  
[DonateforResearch@BloodworksNW.org](mailto:DonateforResearch@BloodworksNW.org)

## HELP SCIENTISTS ADVANCE MEDICAL TREATMENT AND DIAGNOSTIC OPTIONS IN THE FIGHT TO CURE CANCER.

Bloodworks Northwest is partnering with a research study into several sub categories of blood cancers. Your blood donation will provide medical researchers with critical information used to advance the development of potentially lifesaving and life-changing therapies and treatments for blood cancers affecting the immune system. Participation in this program is not a treatment for your disease, and it will not result in any direct health benefit.

### DONATION IS JUST 3 EASY STEPS:

1. Screening interview — to qualify you as a donor
2. Schedule an appointment
3. Donate

Once qualified as a donor, you may be invited to donate multiple times.  
Reimbursement is provided for your time and availability.

With more than 70 years of Northwest history sustaining the community blood supply, donors are assured that their donations will be safely performed by our knowledgeable staff under the direction of a physician — meeting the highest regulatory standards. Donating a blood sample for research is a way to help others, and to give back to your community.

### DONATIONS ARE COLLECTED AT:

921 Terry Ave, Seattle, WA 98104 and/or  
1551 Eastlake Ave E, Seattle, WA 98102
