

Sean W. Sigmon

**Vice President, Business Development, Life Sciences
InformedDNA**

Sean is the Vice President of Business Development for InformedDNA, the largest and most experienced independent genetics services company in the United States. InformedDNA is striving to evolve healthcare into a more personalized and efficient experience.

Prior to that, he was the Life Sciences National Business Development leader for Coriell Life Sciences' Enterprise Pharmacogenomics program, a comprehensive approach toward using genetic testing to improve health for large organizations.

Previously, Sean was VP of Sales and Business Development at Translational Software, a leading Pharmacogenetic Reporting company, a global marketing manager with Microsoft's Health Solutions Group, a senior manager with Philips' Healthcare market intelligence group, and spent more than ten years with Boehringer Ingelheim.

Throughout his career, Sean has helped executives and clinicians understand and embrace new therapies, devices, software and ways of working.

Sean serves as Chair of the Board of Trustees for Bloodworks Northwest. He holds a BA in Economics from the University of Washington and a MBA from Seattle University.
